SUMMARY

Full-stack Developer with expertise in Laravel, CodeIgniter, and React. Experienced in developing web applications and websites, with a strong background in both front-end and backend technologies.

TECHNICAL SKILLS

- **Frontend:** JavaScript, React.js, Next.js, Tailwind CSS, Bootstrap, AJAX, Figma
- **Backend:** Laravel, CodeIgniter
- **Database:** MySQL, Oracle
- **Version Control:** Git (GitHub, GitLab)

EXPERIENCE

Full-Stack Developer

Midas Health Services | February 2025 – present

Hospital Management System

- Debugged and resolved issues in the existing hospital management system to improve performance and stability
- Optimized database queries and views for better efficiency and faster load times
- Developed and implemented new features based on client requirements using **Laravel** and **CodeIgniter (CI)** frameworks

Full-Stack Developer

Seshar Innovation | December 2023 – November 2024

- Enhanced the CIMS system (CodeIgniter) by fixing bugs and adding new features such as email notifications, a case referral system, case reminders, and password recovery functionalities.

Magnus Pharma

- Developed an order management system (Laravel), including features for quarterly target reports, daily call reports, and product management modules.

Learning Management System

- Designed user interfaces using Bootstrap and integrated APIs with Axios in a React-based application.
- Implemented state management using Zustand for efficient data handling and improved user experience.

Opportunities Sharing Website - Full Stack | January 2019 – Till Now

Tech Stack: Laravel, Bootstrap, CSS, JavaScript, Figma, GitHub, CI/CD, Tailwind, React.js, Typescript

- Developed a comprehensive web application for sharing and discovering various opportunities, such as internships, scholarships, and events.
- **Backend Development:** Utilized Laravel for server-side scripting, database management, and API creation, ensuring a robust and secure backend.
- **Frontend Development:** Designed and implemented responsive user interfaces using Bootstrap and custom CSS to enhance user experience.
- **JavaScript Integration:** Employed JavaScript to create dynamic content and improve interactivity.
- **UI/UX Design:** Created wireframes and prototypes in Figma for intuitive and user-friendly interfaces, ensuring seamless navigation.
- **Database Management:** Managed MySQL database, including designing data models and implementing CRUD operations.
- **Testing and Debugging:** Conducted comprehensive testing and debugging to ensure reliability and performance.
- **Deployment:** Deployed the application on a web server, optimizing for performance and accessibility.
- **Collaboration:** Worked with a team using Git for effective version control and code management.

EDUCATION Bachelor's in Information Technology

Nilai University, Nepal | January 2020 – March 2024
